

Global Reset: How to Survive and Thrive in a World in Transition

What does China's changing role in the world economy mean for investing in Canada?

Join us as Economist and Chief Technical Analyst at Caldwell Investments, William Chin, discusses major shifts taking place in the global economy.

- What does China's reopening and new economic paradigm mean for investing in Canada?
- The Middle-East is restructuring, myths about global reserve currencies and the "de-dollarization" fairytale.
- What will structural inflation and demand from China and India mean for investing in Commodities?
- Top three investments to adapt to China's increasing influence on global markets.
